

Eric Hensal 308 Mississippi Ave Silver Spring, MD 20910

Commissioner Kathleen Q. Abernathy Federal Communications Commission 445 12th Street, NW Washington, D.C. 20554

Dear Commissioner Kathleen Q. Abernathy:

As a broadcast television viewer and consumer of electronics and computer products, I urge the Federal Communications Commission to vote against the adoption of a "broadcast flag." I am outraged that the FCC would consider a regulation would restrict the way I enjoy television.

The broadcast flag is neither in my interest nor the public's interest. It will prevent me from watching digital broadcast television in the ways I currently enjoy analog broadcast television—for example, it will restrict my ability to move the video I have recorded for personal viewing from room—to—room and place—to—place.

The broadcast flag will also lock out my computer as a way to watch my favorite shows using my choice of software on a plane or train, or to send a television clip of a high school football game to family and friends.

Furthermore, if computers cannot freely receive digital television, how can I expect creative developers to discover new devices that enable me to use content in exciting ways I haven't even thought of? I value innovative devices like TiVo, ReplayTV and the Windows Media Center PC, which exist today because they were built to open standards using inexpensive, off—the—shelf computer parts.

If the move to digital television does not make the public's viewing experience more enjoyable, flexible, and exciting, what compelling reason do I have as a consumer to buy new digital television equipment? A prettier picture is hardly enough reason for me to dispense with all my current consumer electronics and computer equipment. As a citizen and viewer of broadcast television, I urge you to promote the digital television transition by opposing adoption of the broadcast flag.

Sincerely,

Eric Hensal

Commissioner Kathleen Q Abernathy Federal Communications Commission 445 12th Street, NW Washington, D.C 20554

Dear Kathleen Abernathy,

I am writing to voice my opposition to any FCC-mandated adoption of "broadcast flag" technology for digital television. As a consumer and citizen, I feel strongly that such a policy would be bad for innovation, consumer rights, and the ultimate adoption of DTV

A robust, competitive market for consumer electronics must be rooted in manufacturers' ability to innovate for their customers. Allowing movie studies to veto features of DTV-reception equipment will enable the studies to tell technologists what new products they can create. This will result in products that don't necessarily reflect what consumers like me actually want, and it could result in me being charged more money for inferior functionality.

If the FCC issues a broadcast flag mandate, I would actually be less likely to make an investment in DTV-capable receivers and other equipment. I will not pay more for devices that limit my rights at the behest of Hollywood. Please do not mandate broadcast flag technology for digital television. Thank you for your time.

Sincerely,

Suzanne Willis 703 S 2nd St Dekalb, IL 60115 USA

Commissioner Kathleen Q. Abemathy Federal Communications Commission 445 12th Street, NW Washington, D.C. 20554

Dear Kathleen Abemathy,

I am writing to voice my opposition to any FCC-mandated adoption of "broadcast flag" technology for digital television. As a consumer and citizen, I feel strongly that such a policy would be bad for innovation, consumer rights, and the ultimate adoption of DTV.

A robust, competitive market for consumer electronics must be rooted in manufacturers' ability to innovate for their customers. Allowing movie studios to veto features of DTV-reception equipment will enable the studios to tell technologists what new products they can create. This will result in products that don't necessarily reflect what consumers like me actually want, and it could result in me being charged more money for infenor functionality.

If the FCC issues a broadcast flag mandate, I would actually be less likely to make an investment in DTV-capable receivers and other equipment. I will not pay more for devices that limit my rights at the behest of Hollywood. Please do not mandate broadcast flag technology for digital television. Thank you for your time.

Daena M. Creel PO Box 85 141 Main ST York Springs, PA 17372

Commissioner Kathleen Q. Abernathy Federal Communications Commission 445 12th Street, NW Washington, D.C. 20554

Dear Commissioner Kathleen Q. Abernathy:

As a broadcast television viewer and consumer of electronics and computer products, I urge the Federal Communications Commission to vote against the adoption of a "broadcast flag." I am outraged that the FCC would consider a regulation would restrict the way I enjoy television.

The broadcast flag is neither in my interest nor the public's interest. I expect to be able to watch a program in whatever room I choose, not to be limited by the broadcast flag to watch in one place. If video taping a show is a fair use, then fair use should also include the freedom to watch a show in the bedroom or in the living room, as I choose.

In addition, with the high cost of new digital equipment, I should be able to purchase one digital display to use for both my computer and my television viewing. I can't invest in a \$4,000 television, and a wide, digital computer monitor, but a combined viewer would be more in line with my budget. These devices are already available, and I should be able to use an item for more than one purpose if I so desire.

I do not understand how "free television" could be so restricted. The law states that using a VCR for time—shifting broadcast television shows is a fair use. How can restricting my fair use be approriate? I completely disagree with the entire concept, and strongly urge the FCC to oppose this regulation.

Sincerely,

Daena M. Creel
